Le Jazz Hot

Multi-Strand I-Cord Choker-Style Necklace

Materials: SWTC's Jazz yarn, one hank in Color A007 or your desired color. (This quantity will make multiple necklaces.)

US Size 4 needles (or, if necessary for attaining desired I-cord size, Size 3 or 5 instead), knitter's preference of DPNs, straights, or circulars used as straights.

Yarn needle (for finishing).

Two (2) hypoallergenic metal rings, each 1" in diameter with a 3/4" opening.

Gauge: Four-stitch I-cord diameter (flattened) = approximately 1/4-3/8".

Directions: Cast on four (4) stitches in whatever manner you prefer. (The designer used the cable cast-on, but this is not essential.)

Using your preferred method of I-cord construction and the corresponding type of needles, knit four (4) lengths of I-cord, each about four (4) inches longer than the actual size (circumference) of your neck. For example, if your neck measures 12", then knit four (4) I-cords that are each 16" long. Use yarn needle to neatly hide any loose or stray threads of yarn remaining after bind offs.

Place the four (4) knitted lengths of I-cord side by side, and use yarn needle and yarn to whip-stitch together into a flat fabric. To finish first narrow end, fold ends under, and then under again, before final stitching to create so-called "perfect-finish" seam. Finish second narrow end in same manner, but add both metal rings to this end prior to second fold and final stitching, ensuring that rings have sufficient freedom of movement to permit insertion of first narrow end as shown in photo when wearing necklace.

Wear and enjoy!
